

“Glow Forward” Campaign Report

Lumière Collective — “Glow Forward” Campaign Report

Campaign Period: Q2 2025 April – June 2025

Document Type: Internal Influencer Marketing Campaign Report

Prepared by: Growth & Influencer Marketing Team

Classification: Internal — Confidential

Executive Summary

The “Glow Forward” Q2 2025 campaign was Lumière Collective’s most ambitious influencer-led activation to date, spanning five Southeast Asian markets — Vietnam VN , Thailand TH , Indonesia ID , Singapore SG , and Malaysia MY . The campaign deployed a roster of five carefully selected Key Opinion Leaders KOLs across TikTok, Instagram, YouTube, and Facebook, with the primary objective of driving brand awareness among premium beauty consumers aged 18 34 and accelerating direct-to-consumer DTC conversions.

Over the 13-week campaign window, Lumière Collective achieved a total Gross Merchandise Value GMV of USD 374,200, a Return on Ad Spend ROAS of 4.6x, and a blended Customer Acquisition Cost CAC of USD 7.40. Total campaign impressions exceeded 48 million across all channels, with TikTok emerging as the dominant performance platform by both reach and conversion efficiency.

Key highlights:

- TikTok drove 61% of total attributed GMV despite representing only 38% of total budget
 - Minh Châu Trần delivered the highest single-creator ROAS at 5.8x in the Vietnamese market
 - The campaign overperformed on the 25 34 age segment, achieving a 34% share vs. a planned 28%
 - Halal beauty sub-campaign (led by Aisyah Binte Razak) achieved a 4.1% click-to-purchase conversion rate, highest across all content verticals
-

Campaign Objectives

The “Glow Forward” campaign was designed around three strategic pillars aligned with Lumière Collective’s Q2 2025 business goals:

Primary Objectives

Brand Awareness Expansion — Increase aided brand awareness by 15 percentage points across TH, ID, and MY markets (lower brand maturity markets)

Revenue Generation — Achieve minimum USD 300,000 GMV attributable to KOL-driven traffic within the campaign window

New Customer Acquisition — Drive 28,000+ first-time purchases from new-to-brand customers across all five markets

Secondary Objectives

Community Growth — Grow Lumière Collective’s owned social channels by a combined 80,000 followers

Content Library —Generate 60+ pieces of high-quality UGC and creator content for owned channel repurposing

Platform Diversification — Establish YouTube as a credible long-form review destination for the SG and TH premium segments

KPIs Summary

KPI	Target	Actual	Status
Total GMV USD	300,000	374,200	✓ 24.7%
ROAS	3.5x	4.6x	✓ 31.4%
Total Impressions	40M	48.3M	✓ 20.8%
New Customers Acquired	28,000	31,440	✓ 12.3%
Blended CAC USD	10.00	7.40	✓ 26.0%
Social Follower Growth	80,000	94,200	✓ 17.8%
Content Pieces Generated	60	78	✓ 30.0%
Avg TikTok Engagement Rate	5.0%	6.8%	✓ above target
Avg Instagram Engagement Rate	3.0%	3.6%	✓ above target

Campaign Timeline

Phase	Dates	Activities
Pre-Campaign Planning	Feb 10 – Mar 14	KOL briefings, contract finalisation, creative conceiving
Content Production	Mar 15 – Mar 31	KOL content creation, brand review & approval
Soft Launch VN SG	Apr 1 – Apr 7	First wave TikTok + Instagram posts; Paid seeding begins
Full Market Activation	Apr 8 – May 31	All 5 KOLs active; weekly posting cadence; TikTok Shop live
Mid-Campaign Review	May 5 – May 9	Internal performance review; budget reallocation
Ramadan/Eid Activation	Mar 28 – Apr 6	Aisyah-led halal beauty burst campaign (MY market)
Campaign Peak — 5.5.5	May 5	All-market flash sale; KOL coordinated posting
Wind-Down	Jun 1 – Jun 21	Remaining content; retargeting amplification
Final Reporting	Jun 22 – Jun 30	Data consolidation; this report

Campaign Strategy

The “Glow Forward” campaign was built on a Funnel Amplification Model, designed to leverage different KOL tiers and content formats at each stage of the consumer decision journey.

Strategic Framework

Awareness Layer (Top of Funnel)

Short-form TikTok and Instagram Reels content from macro-influencers Minh Châu Trần and Rizky Aditya seeded broad reach and category curiosity. Content format: GRWM (Get Ready With Me), morning skincare routines, before-and-after demonstrations.

Consideration Layer (Mid Funnel)

YouTube long-form reviews from Nattaya Siriporn and Priya Subramaniam provided deep product education and independent credibility signals to audiences in higher-consideration markets TH, SG. Average video length: 12-18 minutes.

Conversion Layer Bottom of Funnel)
TikTokShop integrationsandInstagram affiliate links with exclusive discount codes (“GLOW15”) created frictionless conversion pathways. Aisyah Binte Razak’s halal-certified product emphasis drove strong conversion in the MY market.

Retention Layer
Post-purchaseZalo VN) and LINE TH) nurture sequences were triggered for KOL-attributed customers, with a 30-day repurchase rate of 18.2% achieved.

KOL Selection Rationale

KOL	Mar ket	Tier	Primary Platform	Strategic Role
Minh Châu Trần	Vietnam	Macro	TikTok	Market anchor, volume driver, VN brand voice
Nattaya Siriporn	Thailand	Macro	Instagram / YouTube	Premium credibility, TH market penetration
Rizky Aditya	Indonesia	Macro	TikTok / YouTube	Male grooming segment, ID mass-market reach
Priya Subramaniam	Singapore	Mid-tier	Instagram / YouTube	Luxury validation, regional credibility halo
Aisyah Binte Razak	Malaysia	Micro	TikTok / Instagram	Halal segment authority, MY community trust

KOL selection was guided by Lumière Collective’s proprietary evaluation scorecard, assessing audience demographic alignment (weight: 30% , engagement quality 25% , content aesthetics 20% , brand safety 15% , and exclusivity status 10% . All five KOLs passed brand safety screening with no flagged content in the prior 12 months.

Marketing Channels & Platform Strategy

The campaign operated across four primary platforms with differentiated roles:

Platform	Strategic Role	Budget Share	Primary Markets
TikTok	Volume reach, conversion via TikTok Shop	38%	VN, ID, MY, TH
Instagram	Premium brand image, mid-funnel engagement	29%	SG, TH, VN
YouTube	Long-form review, trust building	22%	TH, SG, ID
Facebook	Retargeting, VN/ID older demographic reach	11%	VN, ID

A paid amplification strategy was applied to top-performing organic posts within 48 hours of publication, boosting reach by an average of 3.4x per post. Budget allocation to paid amplification represented 22% of total media spend.

Budget Allocation

Total Campaign Budget: USD 81,300

Budget Category	USD	% of Total
KOL Fees (flat + performance hybrid)	38,400	47.2%
Paid Media Amplification	17,880	22.0%

Budget Category	USD	% of Total
Content Production Support	6,500	8.0%
Platform Tools & Analytics	4,200	5.2%
Campaign Management Internal)	9,800	12.1%
Contingency / Optimisation Reserve	4,520	5.5%

KOL Fee Breakdown:

KOL	Flat Fee USD	Performance Bonus USD	Total USD
Minh Châu Trần9,500		2,100	11,600
Nattaya Siriporn8,200		1,400	9,600
Rizky Aditya7,800		1,800	9,600
Priya Subramaniam5,200		900	6,100
Aisyah Binte Razak1,200		300	1,500
Total	31,900	6,500	38,400

Paid vs. Organic Distribution

Metric	Organic	Paid Amplified	Total
Impressions	21,400,000	26,900,000	48,300,000
Clicks	312,000	448,000	760,000
GMV Attributed USD	148,200	226,000	374,200
GMV Share	39.6%	60.4%	100%
Avg CPM USD	—	4.20	—
CTR	—	2.4%	—

Paid amplification was selectively applied to posts that crossed an organic engagement threshold of 5% within 6 hours, ensuring budget was deployed against already-validated content signals. This performance-gating approach resulted in an overall paid CTR of 2.4% — within the target range of 1.8 3.5%.

Platform Performance — TikTok

Metric	Value
Total TikTok Impressions	22,800,000
Total TikTok Videos Published	34
Avg Engagement Rate	6.8%
Avg Video Completion Rate	54%
TikTok Shop Orders Attributed	8,940
TikTok GMV USD	228,300
Top Performing Video	Minh Châu Trần — “7-day Glow Serum challenge” 4.1M views)
Avg CPM Paid Boost, USD	3.10
CTR Paid Posts)	2.9%

Analyst Commentary:

TikTok was the clear performance standout of the “Glow Forward” campaign. The TikTok Shop integration — launched in VN, ID, and MY — proved particularly powerful for driving zero-friction impulse purchases. Minh Châu Trần’s 7-day Glow Serum challenge mechanic drove exceptional organic virality (4.1M views without paid boost) and was the single largest revenue-generating content piece of the entire campaign at USD 64,200 attributed GMV. Rizky Aditya’s male grooming content expanded Lumière Collective’s audience profile in Indonesia, with 38% of his video audiences being male — a strategically new segment for the brand. Recommendation: increase TikTok Shop budget by 20-25% in Q3 2025 and replicate the “challenge” format across TH and MY markets.

Platform Performance — Instagram

Metric	Value
Total Instagram Impressions	14,100,000
Total Posts + Reels Published	28
Avg Engagement Rate (Reels)	4.2%
Avg Engagement Rate (Static Posts)	2.8%
Instagram Story Swipe-Up Rate	3.6%
GMV Attributed via Instagram (USD)	88,600
Top Performing Content	Nattaya Siriporn — “Glow Forward Morning Ritual” Reel (890K views)
Avg CPM (Paid Boost, USD)	5.80
CTR (Paid Posts)	2.1%

Analyst Commentary:

Instagram served its intended mid-funnel role effectively, with Priya Subramaniam’s content delivering the highest audience quality signals — her followers demonstrated a 4.8% Story swipe-up rate vs. the campaign average of 3.6%. Reels significantly outperformed static posts across all KOLs on both reach and engagement, reinforcing the shift toward short-form video on the platform. The SG market showed the highest Instagram conversion efficiency (USD 38 average order value vs. USD 22 campaign average). Nattaya Siriporn’s Morning Ritual Reel achieved strong organic spread in Thailand, requiring minimal paid amplification. Instagram remains the preferred platform for the premium SG and TH segments; budget should be maintained in Q3.

Platform Performance — YouTube

Metric	Value
Total YouTube Views	3,820,000
Total Videos Published	9
Avg View Duration	58%
Avg Engagement Rate (Likes + Comments / Views)	4.9%
GMV Attributed via YouTube (USD)	44,100
Top Performing Video	Rizky Aditya — “Honest Review: Lumière Glow Serum for Men” (620K views)
Avg CPM (Pre-roll ads, USD)	9.40
Click-to-Purchase Conversion Rate	3.8%

Analyst Commentary:

YouTube delivered the highest-quality conversion signal among all platforms, with a 3.8% click-to-purchase rate reflecting the high purchase intent of audiences who engaged with long-form review content. Rizky Aditya’s “honest review” framing for the male grooming segment drove unexpectedly strong results — 620K views is 2.3x above forecast for his channel’s beauty content. Average view duration of 58% is above the 45–65% benchmark target, indicating strong content quality and audience relevance. YouTube’s contribution to overall GMV (11.8%) is below its relative budget share (22%), suggesting that YouTube functions more as a trust-building channel than a direct conversion driver. Q3 recommendation: maintain YouTube investment for SG and TH but track assisted conversion attribution more rigorously.

Platform Performance — Facebook

Metric	Value
Total Facebook Impressions	7,580,000
Total Posts Published	14
Avg Engagement Rate	2.2%
GMV Attributed via Facebook USD	13,200
Primary Markets	Vietnam, Indonesia
Avg CPM Paid, USD	2.60
CTR Paid Posts)	1.9%

Analyst Commentary:

Facebook’s role in “Glow Forward” was deliberately limited to retargeting and reach extension in the VN and ID markets, where the platform retains a meaningful user base among the 30–44 age demographic. Performance was modest by GMV contribution (USD 13,200; 3.5% of total), though CPM efficiency was the lowest across all platforms at USD 2.60, reflecting the cost-effectiveness of Facebook for budget-conscious reach extension. The platform is not recommended as a primary activation channel for Q3 but retains value as a retargeting surface in VN and ID.

KOL Performance Comparison

KOL	Mar ket	GMV USD	ROAS	Avg Engagement Rate	Top Platform	New Customers
Minh Châu Trần	VN	136,400	5.8x	7.4% TikTok	TikTok	10,820
Nattaya Siriporn	TH	78,200	4.1x	4.8% Instagram)	Instagram	6,340
Rizky Aditya	ID	94,600	4.9x	6.2% TikTok	TikTok / YouTube	8,910
Priya Subramaniam	SG	42,800	3.5x	3.9% Instagram)	Instagram	3,180
Aisyah Binte Razak	MY	22,200	4.6x	5.1% TikTok	TikTok	2,190
Campaign Total		374,200	4.6x	6.8% TikTok blended)		31,440

Audience Demographic Breakdown

Age Distribution

Age Group	Planned %	Actual %	Delta
18 24	40%	38%	2pp
25 34	28%	34%	6pp
35 44	18%	16%	2pp
45	14%	12%	2pp

The 25 34 cohort over-indexed relative to plan, reflecting strong resonance with Millennial self-care content, particularly Nattaya Siriporn and Priya Subramaniam’s “skincare investment” messaging.

Gender Split

Gender	Share
Female	78%
Male	18%
Non-binary / Unspecified	4%

Male audience share (18%) exceeded the 12% plan target, driven by Rizky Aditya’s grooming content in Indonesia.

Country Breakdown

Country	GMV Share	Audience Share	Avg Order Value USD
Vietnam	36.4%	34%	19.80
Indonesia	25.3%	29%	16.40
Thailand	20.9%	20%	24.20
Singapore	11.4%	10%	38.10
Malaysia	5.9%	7%	21.30

Income Tier Breakdown

Income Tier	Audience %	GMV Contribution
Mass Market (< USD 500/mo)	38%	21%
Middle Income (USD 500 1,500/mo)	44%	51%
Premium (> USD 1,500/mo)	18%	28%

Top Audience Interests

Interest	Audience Overlap %
Skincare Routine	82%
K Beauty	64%
Self-Care & Wellness	71%
Sustainable Beauty	43%
Makeup & Cosmetics	58%

Interest	Audience Overlap %
Halal Beauty	22%

Conversion Funnel Analysis

Funnel Stage	Users	Conversion Rate
Impressions	48,300,000	—
Video/Post Engagements	3,280,000	6.8% of impressions
Link Clicks (to store)	760,000	23.2% of engagements
Add to Cart	142,000	18.7% of clicks
Checkout Initiated	68,400	48.2% of add-to-cart
Purchase Completed	31,440	46.0% of checkout
Repeat Purchase 30-day	5,720	18.2% of purchasers

Blended Click-to-Purchase Conversion Rate: 4.1% (within target range of 2.5 5.5%)

The highest conversion rate was recorded for Aisyah Binte Razak’s TikTok halal beauty content at 5.4%, attributed to a highly intent-matched audience and clear halal certification messaging that reduced purchase hesitation in the MY market.

Campaign Insights & Key Learnings

What Worked

TikTok Shop frictionless commerce — In-app purchasing removed the drop-off risk of redirecting users to an external site. VN and ID TikTok Shop conversion rates were 2.1x higher than Instagram link-in-bio conversion.

Challenge content format — Minh Châu Trần’s 7-day challenge drove sustained engagement over an extended period vs. single-post decay. Organic shares contributed 31% of total reach on this content piece.

Male grooming as emerging vertical — Rizky Aditya’s inclusion expanded Lumière Collective’s addressable market in ID by an estimated 12%. First-time male purchasers accounted for 9.4% of total new customers.

Halal micro-influencer efficiency — Aisyah Binte Razak’s USD 1,500 total fee generated USD 22,200 GMV, a ROAS of 4.6x — comparable to the macro-influencer average at a fraction of the investment.

Paid amplification gating — Boosting only posts that cleared organic performance thresholds reduced wasted spend and increased overall paid ROAS by an estimated 0.8x vs. a blanket boost strategy.

What Underperformed

YouTube direct conversion — Despite strong view duration and engagement metrics, YouTube attribution to direct GMV was lower than anticipated 3.5% budget → 11.8% GMV . The platform’s contribution to assisted conversions was not fully captured in this cycle.

Facebook engagement in MY — Facebook posts in Malaysia showed the weakest engagement across the campaign 1.4% avg), indicating platform irrelevance for the MY audience and suggesting budget should be reallocated.

35 44 audience reach — This segment underperformed vs. plan, suggesting current KOL roster skews younger. Consideration should be given to adding a creator with stronger resonance in this cohort for Q3.

Business Recommendations

Immediate Actions (Q3 2025)

Expand TikTok Shop to Thailand — TikTok Shop is live in VN, ID, and MY but not yet activated for TH.

Given Nattaya Siriporn's strong Instagram performance in TH, a coordinated TikTok Shop launch in Q3 with her involvement is recommended. Projected incremental GMV USD 40,000 60,000.

Re-engage Minh Châu Trần for a Q3 exclusive — Her 5.8x ROAS and 10,820 new customers make her the highest-value KOL on the roster. A Q3 exclusivity arrangement with 15% fee uplift is commercially justified.

Invest in YouTube attribution tracking — Implement UTM-tagged YouTube description links and post-purchase attribution surveys to capture YouTube's true contribution to the conversion journey before reducing its budget allocation.

Strategic Recommendations (H2 2025)

Build a Male Grooming sub-brand campaign — The male audience response to Rizky Aditya's content suggests sufficient market demand for a dedicated male grooming campaign in Indonesia, leveraging the "Clean Ritual Body Care" line. Target Q4 2025.

Scale halal beauty micro-influencer network — At a 4.6x ROAS and sub-USD 2,000 fee, halal micro-influencers represent the highest-efficiency segment in the portfolio. Recommend recruiting 3 5 additional halal beauty creators in MY and ID for Q3.

Develop a Priya Subramaniam "luxury editorial" series — Her SG audience demonstrates the highest average order value USD 38.10) and premium product affinity. A quarterly long-form YouTube + Instagram editorial partnership would strengthen Lumière Collective's luxury positioning in SG.

Discontinue Facebook as KOL content channel — Redirect the USD 8,900 Facebook budget to TikTok paid amplification and YouTube pre-roll in VN and ID, markets where Facebook's audience is already reachable via the younger-skewing platforms.
